Alongside consulting, progress is being made with the web shop.

Android and iOS apps in the form of Inoshop, Inoqr and Inocut, coupled with www.inovatools.eu. These offer users fast and comprehensive information and guide them to the specific tools they need in just a few short steps.

Depending on the technology, a specific cross-section, copy milling or the maximum machine speed can be calculated via a checkbox. The efficiency is shown by means of a diagram and can be compared with specific tools via a computer function.

Data sheets for each tool, provided via the Inotech app, provide the perfect finishing touch for web-based tool shopping.
